

HẠT LỌC ĐA NĂNG C&S

ReeChem
WATER TREATMENT
Good water changes your life

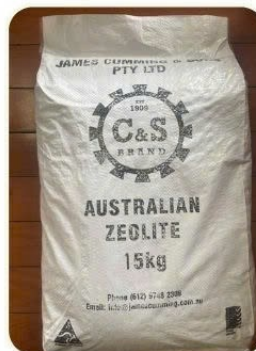

APPLICATION

Zeo C&S is used in drinking, return and waste water treatment:

- To remove the iron and the iron oxides
- To remove ammonia
- To improve the organoleptic characteristics of water
- Improve pH and stabilize it at 6.5-8.0
- Fine oil cleaning
- Decrease percentage of radionuclide
- Decrease percentage of heavy non-ferrous metal
- Decrease the phosphate, chloride, nitrogen compounds

Specifications :

- ✓ Size : 1.0 - 2.2mm
- ✓ Bulk Density : 1000-1100kg/m³
- ✓ Total Sorption Capacity : 1.3 g/g
- ✓ Hardness : 7%
- ✓ Total Surface Area : 120-180m²/g
- ✓ Relative Mechanical Strength : 0.85%
- ✓ Ion Exchange Capacity For Cr, Ni and other heavy metals ions : Up to 1.2 mg-eq/g
- ✓ Effective Pore Diameter : 40-1200 angstrom
- ✓ Ion Exchange Capacity For CaO, MgO : Up to 950mg/g
- ✓ Petroleum and oil sorbing capacity : More than 90mg/g
