

TECHNICAL DATASHEET

Activated Carbon – TĐHH

Trabaco is a Viet Nam leader in the research, development, manufacturing and sale of high-grade activated carbon used in a growing range of environmental, health, safety and industrial applications. We offer a wide range of industry-leading activated carbon solutions, each with their own uses and application. It is ideal for the following applications:

- Water Treatment
- Air Treatment / Purification
- Power Plant
- Chemical purification and catalysts
- Mining
- Pharmaceuticals

SPECIFICATION - TĐHH 0820 Mesh

Iodine adsorption	400-600 mg/g
Hardness	95% min
Bulk density	750g/l max
Moisture content	5% max
Ash	8% max
Mesh size	90% min
Application	Drinking Water
Manufactured	TRABACO

TECHNICAL SUPPORT

Factors that affect the performance of product:

- Molecular weight
- pH
- Particle size
- Flow rate
- Temperature

Features and Benefits

- High Purity level
- Versatile adsorbent
- High mechanical strength
- Good adsorption capacity
- Potable water grade

Available Particle Sizes

- 8x20 mesh (0.85 -2.38 mm)
- Othersizes available on request

Approvals and Certifications

- Halal certified
- Food Grade

Standard Packaging

- 25 kg sack
- 500 kg bulk bag
- Bulk tanker
- Other packing considered on request

PRODUCTION CAPABILITY

Trabaco is one of famous activated carbon manufacturer in the world with big capacity

The quality of the product is the value of TRABACO, non-stop investment in human resource and improvement is a driving force for sustainable development
